Mercedes-Benz Agility

Flexible and affordable finance

At Mercedes-Benz we offer a range of ways for you to fund the purchase of your new van. One of our most popular finance products is Mercedes-Benz Agility.

How does Mercedes-Benz Agility work?

At the start of the agreement your Business Manager will advise you of the Guaranteed Future Value for your van based on the mileage that you expect to cover during the course of your agreement. This Guaranteed Future Value is equal to the final Optional Purchase Payment – but you don't have to decide whether to make this payment and keep the van until the end of the agreement. In the meantime, you simply choose how long you want to keep the van, how much you'd like to pay as an initial deposit and the monthly payments that suit you best. When the agreement comes to an end you can either purchase, return or part-exchange the vehicle.

The benefits of Agility

- **Lower Monthly Payments** – better budget control and improved cashflow for your business.
- **Guaranteed Future Value** – avoids the risk of unplanned or unaccounted for, depreciation.
- **Change Cycle** – regular cycle change ensures your business benefits from the latest technology, including safety, economy, fuel and environmental efficiency.
- **Residual Safety** – the GFV ensures that you can change the vehicle regularly to meet changing business and market needs.
- **Revenue Allowances** – any interest paid on finance and maintenance costs are fully allowable.

Choice of 3 options

Option 1

Purchase your Mercedes-Benz by paying the Optional Purchase Payment.
Please note that a 'Purchase Activation Fee' of £10 will be debited from your account. This will complete the purchase of your Mercedes-Benz, leaving you free to Part Exchange for a new Mercedes-Benz, or to simply enjoy your van.

Option 2

Hand back your Mercedes-Benz.
If you decide to return the van to us, it's vital that you check your Mercedes-Benz for any unacceptable damage beforehand. Fees can easily be avoided if you follow our vehicle return standards.

Option 3

Purchase and part-exchange your Mercedes-Benz for a brand new one.
Please note that a 'Purchase Activation Fee' of £10 will be debited from your account. This will complete the purchase of your Mercedes-Benz, leaving you free to Part Exchange for a new Mercedes-Benz, or to simply enjoy your van.

Mercedes-Benz Contract Hire

Your fleet, all taken care of

Contract Hire can be a great way to reduce the hassle of running a commercial fleet. It requires no capital investment and the vehicle is not shown on your balance sheet.

How does Mercedes-Benz Contract Hire work?

Instead of owning the vehicle or vehicles, you hire them for a fixed period for a fixed monthly fee. This fee is based on the difference between the initial value of the vehicles and their projected value at the end of the agreement, so you only repay a proportion of the vehicle's costs, which can only be good news for your cash flow. With a Contract Hire agreement you avoid any concerns about the future value of your vehicle or selling it on – at the end of your agreement you simply hand it back (subject to excess mileage BVRLA return standard guidelines).

The benefits of Contract Hire

- **Fixed costs** – budget planning and cost control – inflation proof against payment and maintenance.
- **No disposal worries** – vehicle simply returned at the end of the contract (Subject to excess mileage BVRLA return standard guidelines).
- **Administration** – Road Fund Licence administration taken care of.
- **Cashflow** – low initial outlay, flexible rental terms, VAT recovery and no residual risk.
- **Off Balance sheet** – can improve key ratios and can acquire use without appearing on balance sheet.
- **Revenue Tax Allowance** – the whole use of the vehicle is deemed for business use, therefore 100% of the rentals paid can be reclaimed as a Revenue Tax Allowance.
